

Evolugen's Indigenous Principles

Evolugen by Brookfield Renewable is committed to responsible resource development.

Consistent with our culture, we recognize the importance of developing and maintaining strong relationships with Indigenous peoples. We recognize that Indigenous peoples were the original inhabitants of the land that became Canada and respect that each community has its own distinctive culture, traditions, values and aspirations.

The following principles guide our conduct when working with Indigenous peoples in Canada:

- Our Indigenous relationships are based on fundamental values of honesty, respect and open communications.
- We recognize the special relationship that Indigenous peoples have with the land. We seek to learn and incorporate traditional knowledge into project decisions.
- We are committed to the sustainable use and preservation of the environment for future generations.
- In developing partnerships with Indigenous communities, we actively seek to structure new projects in ways that provide social, cultural and economic benefits.
- We engage in timely, respectful and meaningful consultation with the goal of achieving free, prior and informed consent on new projects.
