

# Comber BESS Project: Meeting Minutes

Community Consultation Meeting #2

## Meeting Date/Time

Evolugen hosted its second Community Consultation Meeting via Zoom Webinar on Thursday, August 11, 2022, from 7:00 – 8:30 p.m.

## Meeting Purpose

The province of Ontario is predicting an electricity shortfall during peak hours as early as 2025 and the government is requesting proposals for new projects to prevent blackouts caused by the Pickering Nuclear Generating Station coming offline.

Evolugen's Comber Project directly responds to the province's call.

## Meeting Attendees

### External (x3)

- Dave Buchanan
- Marie Jacques
- Sam B.

### Internal (x3)

- Nick Best, Director, Public Affairs, Eastern Canada, Evolgen
- Shuwen Sun, Manager, Operations, Evolgen
- Robyn Moffatt, Advisor, External Affairs, Evolgen

## Questions Asked

- What is the lifespan of the batteries?
- What do you do with them after their lifespan?
- Who is responsible to dispose of the batteries? How do you do this?
- Will any light be emitted from the batteries?
- How do the batteries cool down? How likely are they to catch on fire?
- What is your fire plan?
- Where on the land will the facility be located?

- Are you installing new power lines?
- What other battery projects has your company developed?
- How long has your company been involved in the battery space?
- When would this be built?
- How long does it take to be built?

### **Action Items**

- No action items from this meeting. Participants were comfortable with the level of detail and information shared.
- These individuals will be contacted should we be awarded a contract through the IESO.
