

Comber BESS Project: Meeting Minutes

Community Consultation Meeting #4

Meeting Date/Time

Evolugen hosted its fourth Community Consultation Meeting at the Comber Community Centre on Thursday, October 27, 2022, from 5:00 – 7:00 p.m.

Meeting Purpose

The province of Ontario is predicting an electricity shortfall during peak hours as early as 2025 and the government is requesting proposals for new projects to prevent blackouts caused by the Pickering Nuclear Generating Station coming offline.

Evolugen's Comber Project directly responds to the province's call.

Meeting Attendees

External (x1)

- *Attendee did not wish to disclose personal information*

Internal (x1)

- Nick Best, Director, Public Affairs, Eastern Canada, Evolgen

Questions Asked

- How will this project affect my property value?
- How tall are the battery containers?
- How many of the containers do you need?
- Will there be runoff from the facility?
- Will the facility disturb our land?
- Are you using or connecting to the new Hydro One corridor?
- Why are you choosing this location to build?
- How close will this be to my property and others?

Action Items

- No action items from this meeting. Attendee was comfortable with the level of detail and information shared.
